A trusted partner for the management of assets deployed within the offshore and renewable energy markets
Who are we, What do we do?

V.Ships Offshore provides marine asset management, crew management and crew operations support services to offshore energy markets.

Our expertise is rooted in a rich marine legacy and our global network ensures we are perfectly poised to manage your offshore and marine assets all over the world. We provide full life services to fixed and floating assets anywhere you need us.

We support investors, owners and operators as they navigate the challenges of offshore asset management. We currently operate a full range of sophisticated vessels including OSVs, Subsea Construction Vessels, dive support and accommodation.

The breadth and depth of our business allows you to focus on what you do best. We’ll handle the rest.

Our Capabilities

V.Ships Offshore can proudly claim to be the world’s largest recruitment and training provider of marine personnel. In effect, we boast a fully owned network of 34+ recruitment offices in key marine and energy work force supply locations.

We can now transform your business with our innovative technology, including purpose built ShipSure 2.0 platform and our Seafarer mobile app.

We can also provide Crew Support and Provision Services using our travel and catering companies. V.Travel is able to source the best travel solutions, at the most competitive price.

Oceanic Catering provides catering to various maritime markets catering for over 1,000 vessels. Catering colleagues are highly trained and aware of their importance within the team.

Together with the largest global network of in-house seafarer training centres and world-class onboard training, Marlins provides industry-leading online eLearning, and Maritime English training along with a comprehensive suite of courses designed specifically for the offshore industry such as Navigation and Engineering Standards, Safety Management System and much more.

Offshore Marine Operations & Management

From project inception to conclusion, we cater for the management of all upstream asset classes. Our core service is marine operations management.

Within the same cell, we also provide a range of services including engineering and commercial management.

We also provide for other more asset-specific functions such as the management of operational equipment.
Health, Safety and Environment

Safety has always been paramount for us in V.Ships Offshore reflected by our proven track record of health and safety (HSE) and lost time injury (LTI) results.
